

## ACKNOWLEDGMENTS

The authors would like to express their gratitude to the many individuals who assisted in the preparation of this document. First, we would like to thank Phil Patterson, Randy Steer, and the Energy Efficiency and Renewable Energy staff for their continued support of the Transportation Energy Data Book project. We would also like to thank Patricia Hu for her guidance and mentoring; Jamie Payne, who designed the cover; and Demin Xiong, who reviewed the final document. Finally, this book would not have been possible without the dedication of Debbie Bain, who masterfully prepared the manuscript and compiled the Index.
